

List of accepted proposals of IMaSS joint usage / joint research program (international collaboration) in FY2022

| NO | Principal Investigator | Affiliation | Project title |
|----|------------------------|----------------------------------|---|
| 01 | Barbara Milow | German Aerospace Center | Preparation and characterization of organic-inorganic aerogels for super-thermal insulation applications |
| 02 | 陳 俊維 | National Taiwan University | Advanced energy utilization technology based on atomic layer materials |
| 03 | Klaus Leifer | Uppsala University | Nanostructure and nucleation phenomena during in-situ synthesis of Cu ₂ ZnSnSe ₄ thin films |
| 04 | Budimir Kliček | Ruder Bošković Institute | Development of e/ μ separation method for cosmic-ray radiography |
| 05 | Elena Firu | Institute of Space Science – ISS | Development of a high-precision radiation film batch in space |
| 06 | Hassan Bevrani | University of Kurdistan | Inverter-based Dynamic Shaping in Renewable Integrated Power Grids |
